

FOSEN TOOLS

TOOL CHEST PORTABLE AVIATION

Custom fitted H135/H145/AW139 - B1

A complete, portable aviation tool solution specifically configured for periodic B1 maintenance of **Airbus H135, H145 and Leonardo AW139 helicopters**.

The tool chest is equipped with a carefully selected range of professional aviation maintenance tools from leading manufacturers including **Snap-on, Facom, Knipex, Ullman and Wera**.

All tools are securely organized in **Fosen Tools HDFI custom-fitted foam inserts**, providing a dedicated position for every tool. Each position is clearly engraved with tool description and article number, while individual tools are laser marked with unique identification for enhanced **tool control, accountability and FOD prevention**.

The portable configuration provides maintenance personnel with an organized and readily deployable tool solution for efficient helicopter maintenance operations in the hangar, on the flight line or at deployed locations.

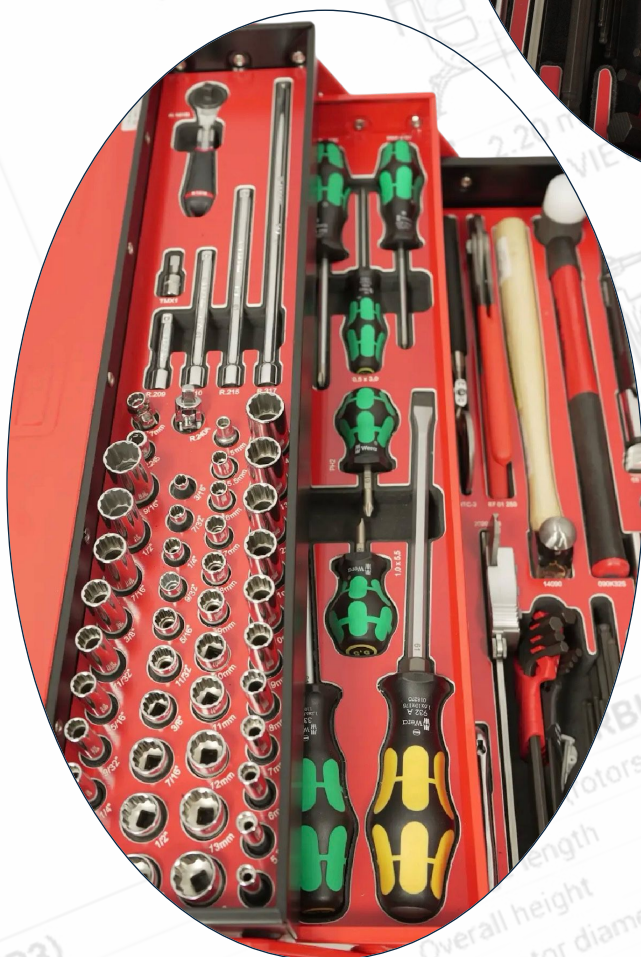

Key features:

- Portable and deployable configuration
- Custom fitted for H135 / H145 / AW139 B1 maintenance
- Professional aviation-grade tools
- HDFI tool control inserts
- Engraved tool identification and article numbers
- Individual laser marking of tools
- Enhanced FOD prevention and tool accountability
- 10 personalized identification tags included
